

PY-102

Ø 114 Hat Plug

- The hat plug is used to close open-ended pipes in children's playgroups, seesaws, swings, and other products.
- The hat plug is manufactured from polyethylene material for indoor and outdoor use.
- The product is resistant to UV lights.
- Its design is oval in a way that does not harm the user.
- It grasps the pipe with its Ø 114 mm double-walled inlet and is easy to install.
