

PY-111 Metal Doetail Clamp Type 2

- Doetail clamp made of 3 mm DKP sheet is used in the swing and climbing connections.
- The inner diameter of the clamp, which consists of 3 parts, is designed in accordance with the carrier pipe with a diameter of Ø114 mm and is formed by attaching the pipe with a gripper on one side and a metal clamp on the other.
- When it is connected to the pipe and its bolts are tightened, there is no gap and loose.
- After the clamp connection is made, there are no protrusions or sharp corners that may cause injury anywhere.
- Bolt connections are designed to not loosen on their own.
- The parts are painted with polyester-based electrostatic powder oven paint by baking
