## PY-143 H:185 Inner Stairs

- The ladder is manufactured in such a way that it can reach 185 cm elevation difference from the tower to the platform.
- Ladders are manufactured from $\emptyset 27 \mathrm{~mm}$ pipe by bending the outer part and welding the pipe that will come to the 3 straight step parts to each other.
- It will be fixed to the $\varnothing 114 \mathrm{~mm}$ pipes by screwing to the platform from the ears on the lower part by attaching the vertical mouth and clamp.
- Stairs will be painted with polyester-based electrostatic powder paint after the welding process is completed.

| Dimensions | Platform Height | 185 cm |
