

## PY-25      H:100 Tube Slide

- H:100 tube slide with a minimum length of 3,44 m, designed to slide from a platform with a height of 100 cm; tube inlet, 35degree tube elbow, 80 tube and figured tube outlet are manufactured from a total of 4 parts and from self-colored polyethylene plastic material LLDPE (Linear Low Density Polyethylene) rotation molding method.
- The product produced as disassembled; It is made a whole by assembling the given tube parts to each other according to the given angles.
- The slide is fixed to the ground with a metal apparatus from the anchorage point at the bottom of the slide's exit point.
- In order for the product surface to be smooth; Sandblasting is applied to the surface of the mold made of aluminum or its equivalent material, and it is produced by passing the teflon coating process for surface brightness.
